

Information about the choice of business form and procurement of railway plan: Bollebygd for Gothenburg-Borås

This information sheet contains information on essential parts of the intended choice of business form for the procurement of consultant assignment for the execution of railway plan Bollebygd, including environmental impact assessment and detailed design for Gothenburg-Borås, part of New Main Lines.

- **Standard agreement:** ABK09
- **Form of assignment:** Assignments specified in the tender documents
- **Form of compensation:** Variable fee
- **Procurement procedure:** Negotiated procedure according to LUF (Law 2016:1146 on procurement in the utilities sector) with step 1 Application invitation (without using the prequalification system TransQ) and step 2 Tender invitation.

Both steps of this procurement procedure will take place in Trafikverket's new procurement system Kommers.

Time schedule for step 1 Application invitation:

Publication of application invitation 2022-04-08 (**NOTE! Advertising of the TED ad takes about 3 working days so the procurement can be seen in Kommers no earlier than 2022-04-13**).

Last day to submit answer to application invitation 2022-05-20

Prequalification finalized middle/end of June 2022

Time schedule for step 2 Tender invitation:

Send tender documents to selected suppliers 2022-07-01

Last day to submit tender 2022-10-13

Evaluation of tenders, award of contract and contract block is ongoing from the middle of October to the end of November 2022

Planned contract start in the middle of January 2023 (**NOTE! This time is preliminary and can be both brought forward and postponed**)

The application invitation in step 1 contains qualification requirements. An assignment orientation will also be provided.

- **Tender evaluation:** Evaluation model - Focus on price och quality (weighting 50/50). The client reserves the right to negotiate but is not obliged to do so.
- **Collaboration:** Collaboration Basic level with some supplementations.
- **Security protection agreement:** According to the implemented security protection analysis which means that the supplier may receive access to security protected classified information or security-sensitive activities in Trafikverket's premises or areas or premises designated by Trafikverket, the supplier must

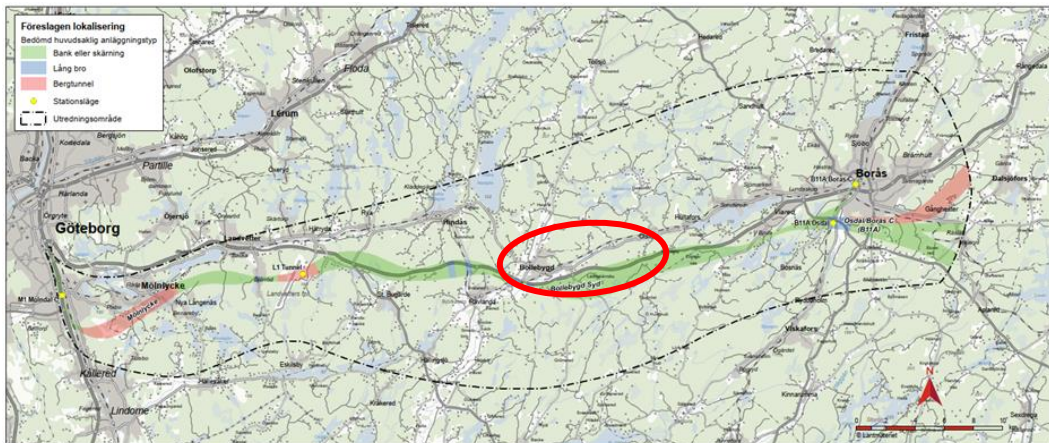

Collection of personal data
