VISION ZERO ACADEMY

Vision Zero
International Course
18-22 SEPTEMBER 2023

Sweden is one of the world's leading countries in the development of road safety with the goal of reducing the number of fatalities and serious injuries in road traffic. Vision Zero is the basis for all road safety work in Sweden.

In 1997, the Swedish Parliament adopted a 'vision zero' goal for road traffic, with the long-term goal that no one would be killed or seriously injured within the road transport system. Vision Zero is an ethical approach, but also constitutes the strategy of forming a safe road transport system. Vision Zero has led to major changes in both working methods and interventions, which will be presented in this course.

TARGET AUDIENCE

The course is targeted for a broad audience, as we welcome everyone who works in practice with traffic safety issues in various agencies such as government authorities, industry, municipalities, NGOs and academia. It is also highly relevant for experts within UN authorities, development banks, and other international organisations.

GOALS OF THE COURSE

After the course the participants will have gained a deep understanding of Vision Zero as a policy innovation and how it can affect working methods, as well as how a safe road transport system can be created. Participants will also receive a platform for the understanding of how to continue the work with road safety issues in their respective countries.

COURSE INFORMATION

For the fifth time we will now offer the Vision Zero International Course in Gothenburg on September 18th to 22th 2023. During the course, interesting lectures will be mixed with study visits to clearly exemplify the Swedish model. At the end of the course the participants will receive a diploma as proof of participation.

COURSE CONTENT

Monday 18th September 9.00 am to 4.30 pm

► **Introduction and Vision Zero innovation**

- Road traffic injuries in the world.
- Road safety work in Sweden from a historical perspective.

Friday 22nd September 8.30 am to 4.00 pm

► **Vision Zero – outcomes and its diffusion around the world**

- Results, safety benefits.
- Vision Zero and sustainable development.
- Panel discussion.

For the fifth time, the Vision Zero Academy of the Swedish Transport Administration is offering Vision Zero International Course. The course is organised in cooperation with several partners from both industry and research. All practical matters will be handled by the Swedish Transport Administration Education and Training Center.

LECTURERS

The course lecturers will primarily be Swedish Transport Administration experts in their respective fields as well as guest lecturers from other authorities, municipalities, academies and industry. All the lectures and course material are in English.

WHERE AND WHEN

The course will be held at the Elite Park Avenue Hotel, Kungssports-
avenyn 36–38 in Gothenburg on September 18th–22th, 2023.

PRICE

The course fee is 36.500 SEK per participant. The course is non-profit and includes hotel, from 17th to 23th of September 2023, all documentation, study visits, breakfast, coffee and snacks in the morning and afternoon, as well as lunch, Monday through Friday. Also included is a group dinner for all participants on the evening of Wednesday September 20th.

REGISTRATION

For more information and registration, please visit our website:

bransch.trafikverket.se/en/visionzero-course

This has been the most
valuable and useful course
I have ever attended.
MANY THANKS for
arranging it.

This course provided a brilliant
opportunity to meet up with
international road safety
leaders committed to ensuring
everyone can get home safe
to their loved ones. Every day.
No exceptions.

The coordination among
the different stakeholders is
amazing and I am sure most
of us, the participants have
learned a lot not only from
the content of the discussions
but also from the way the
course was coordinated.
