

Contacts for the National Mission.

How to contact Arbetsförmedlingen (The Swedish Public Employment Agency)

- We recommend that you first contact your local Arbetsförmedlingen , for which established contact persons exist.
- Arbetsförmedlingen is organised into 11 different market areas.
- Each market area has a division that deals with employers who require national cooperation.
- **We recommend that contacted parties send an email to the email address for their particular market area. Please specify the purpose of the contact as well as the geographic area for which you are seeking contact.**
- Thereafter, you will be contacted by an employment officer who is responsible for that area.
- Please keep the external use of these email addresses to a minimum.
