Notification of the Estonian Maritime Spatial Plan

The Swedish Transport Administration hereby leaves our opinions regarding the notification of the Estonian Maritime Spatial Plan.

- We have no opinions regarding the proposed planning process and scope for the strategic environmental assessment. However, we will follow the continued process with great interest.
- An aspect to take into account are changes discussed in the Swedish proposed MSP, especially regarding traffic separation schemes south of Gotland (TSS North Hoburgsbank).

Rami Yones

Head of Spatial Planning
