

Welcome to market dialogue for the eastern part of the Crosslink Södertörn

The Swedish Transport Administration has decided to conduct individual dialogues regarding the stretch between Gladö kvarn to Slätmossen, the stretch is planned to be divided into several contracts with a value between 200 million SEK to 1 billion SEK. The purpose with the dialogue is to inform the market and get the markets perspective on the upcoming procurements.

In October we invite contractors to individual dialogue meetings regarding the eastern part of Crosslink Södertörn. The meetings will primarily be held at our office in Stockholm, Solna Strandväg 98. The meetings are estimated to take about 1,5 hours.

The dialogues are not part of future procurements and participation does not affect the opportunities to submit tenders in future procurements.

The results of the dialogues will be published in anonymised form on the program's website in good time before the invitation to tender.

Agenda for the dialogue

- Dividing of contracts, contract form and compensation model
- Distribution between drawings and models
- Other questions from the contractor

About the eastern part of Crosslink Södertörn

The eastern part of crosslink Södertörn is the stretch between Gladö kvarn to Slätmossen

The contracts include widening of road 259 from 2 to 4 lanes. New interchanges is planned at Gladö kvarn, Lissma and Djupdalen.
