

North Botnia Line Information meetings 2023

Why are we here?

To inform about upcoming contracts
To get input from you

This is the North Botnian Line

- 270 km single-track railway between Umeå and Luleå, with meeting stations every 10 km.
- 300km of roads
- 3 city stations, Skellefteå, Piteå and Luleå.
4-6 regional train stations
- Mixed traffic with track speed of 250 km/h (passenger trains),
120km/h (freight)
- STAX 25 ton (Substructure 30 ton)
- ECTS signalling system
- Length of trains 750 meters

Umeå-Skellefteå

- 130km railway
- 12 stations
- 3 regional train stations
- 160 km roads and streets
- 130 bridges
- Cost 1,5 billion €
- 32 contracts

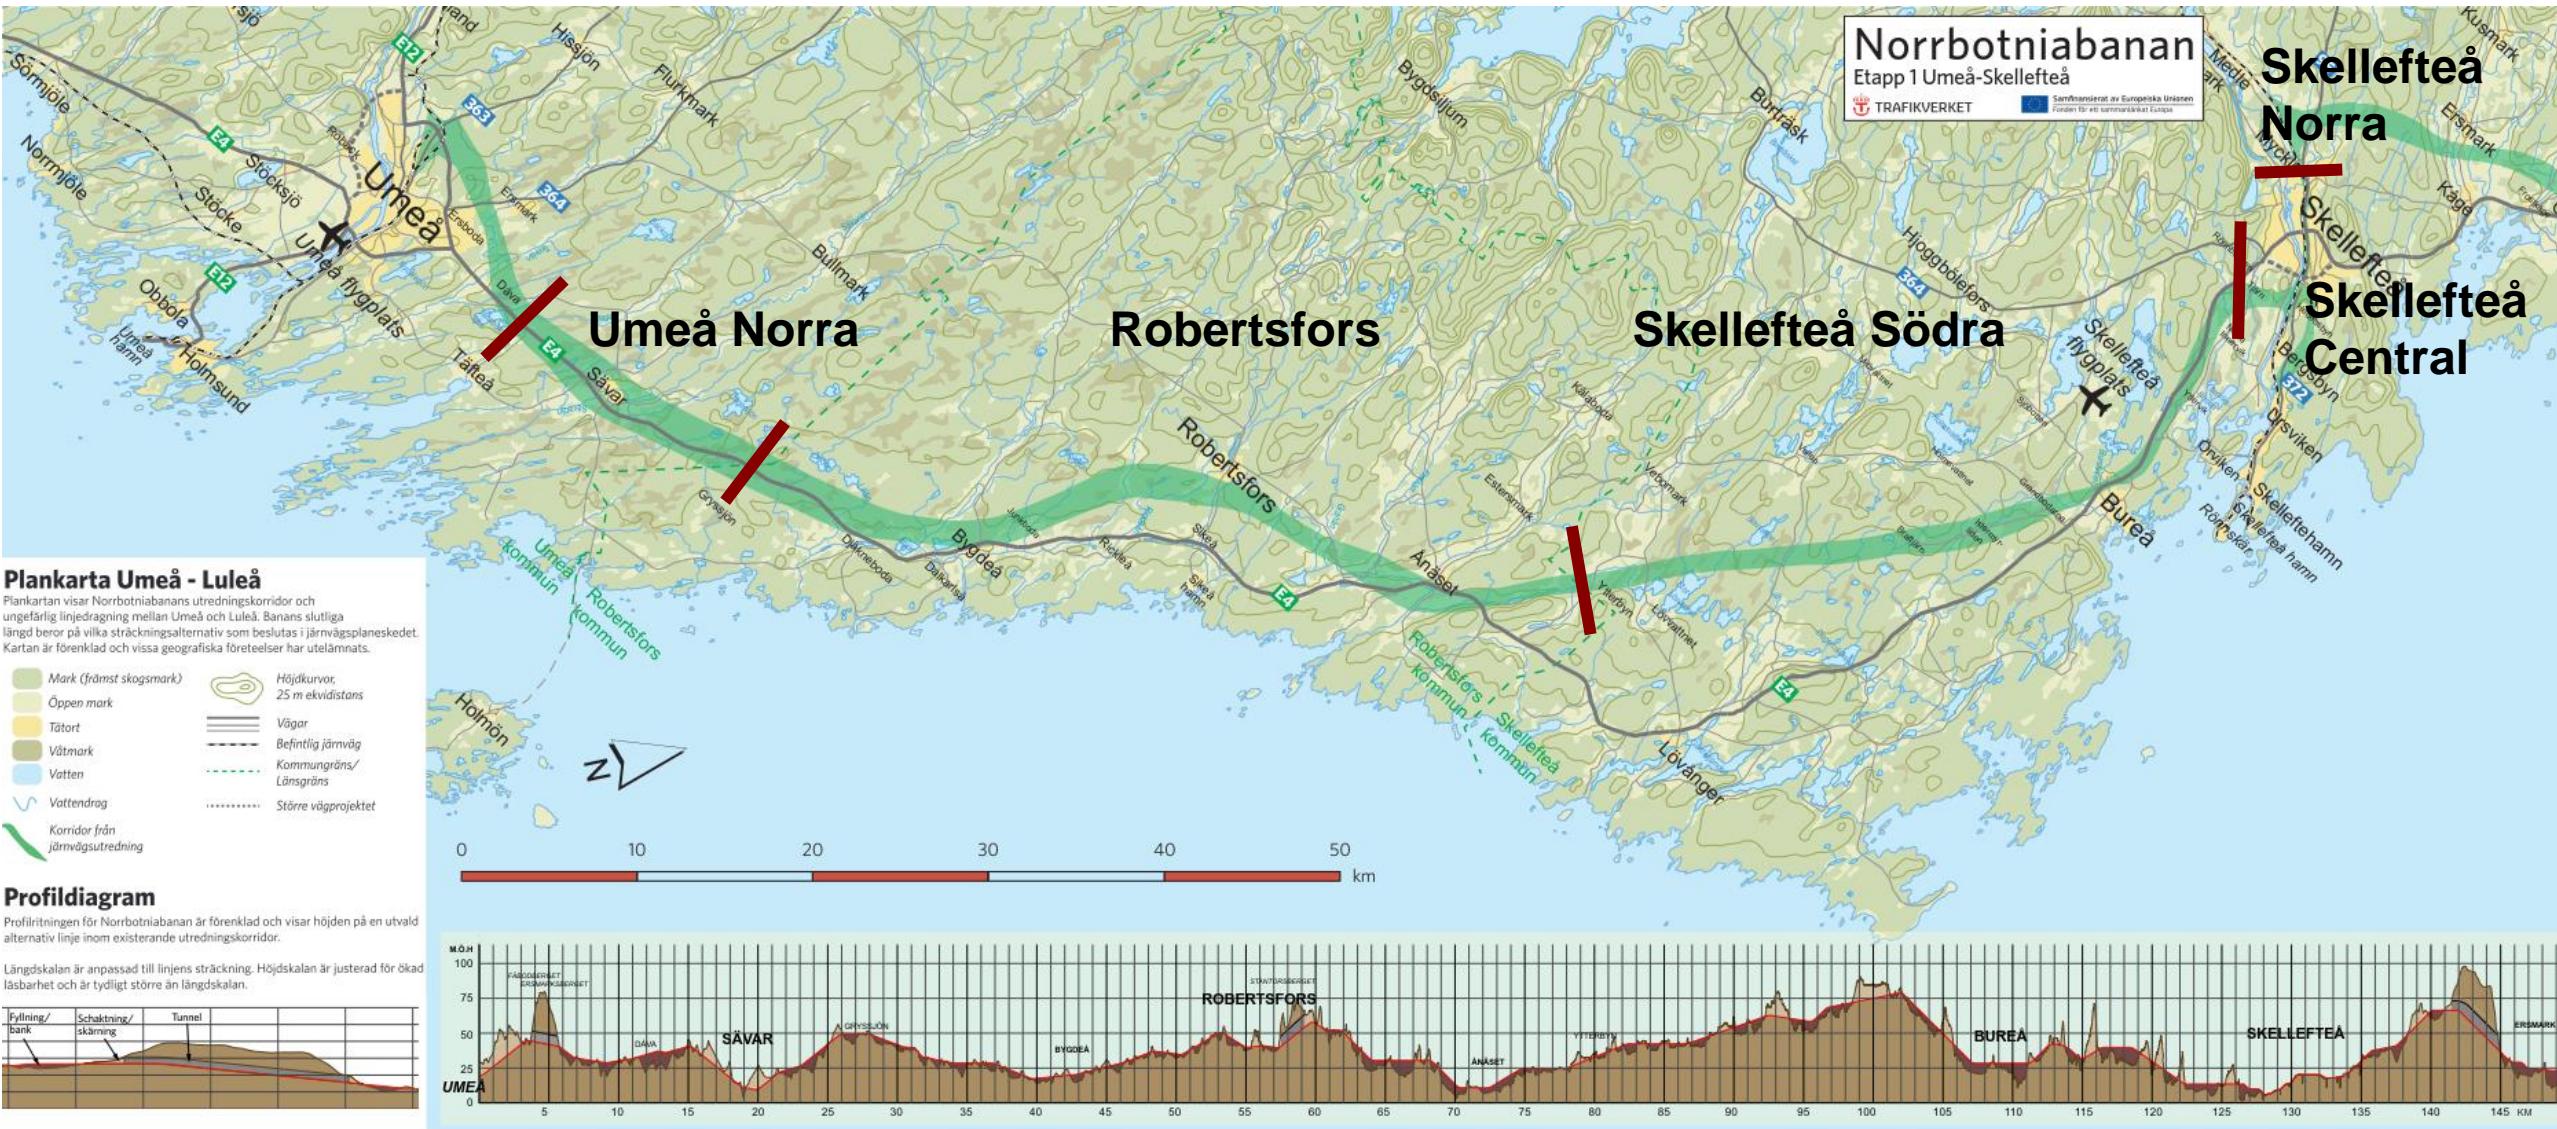

Timeplan

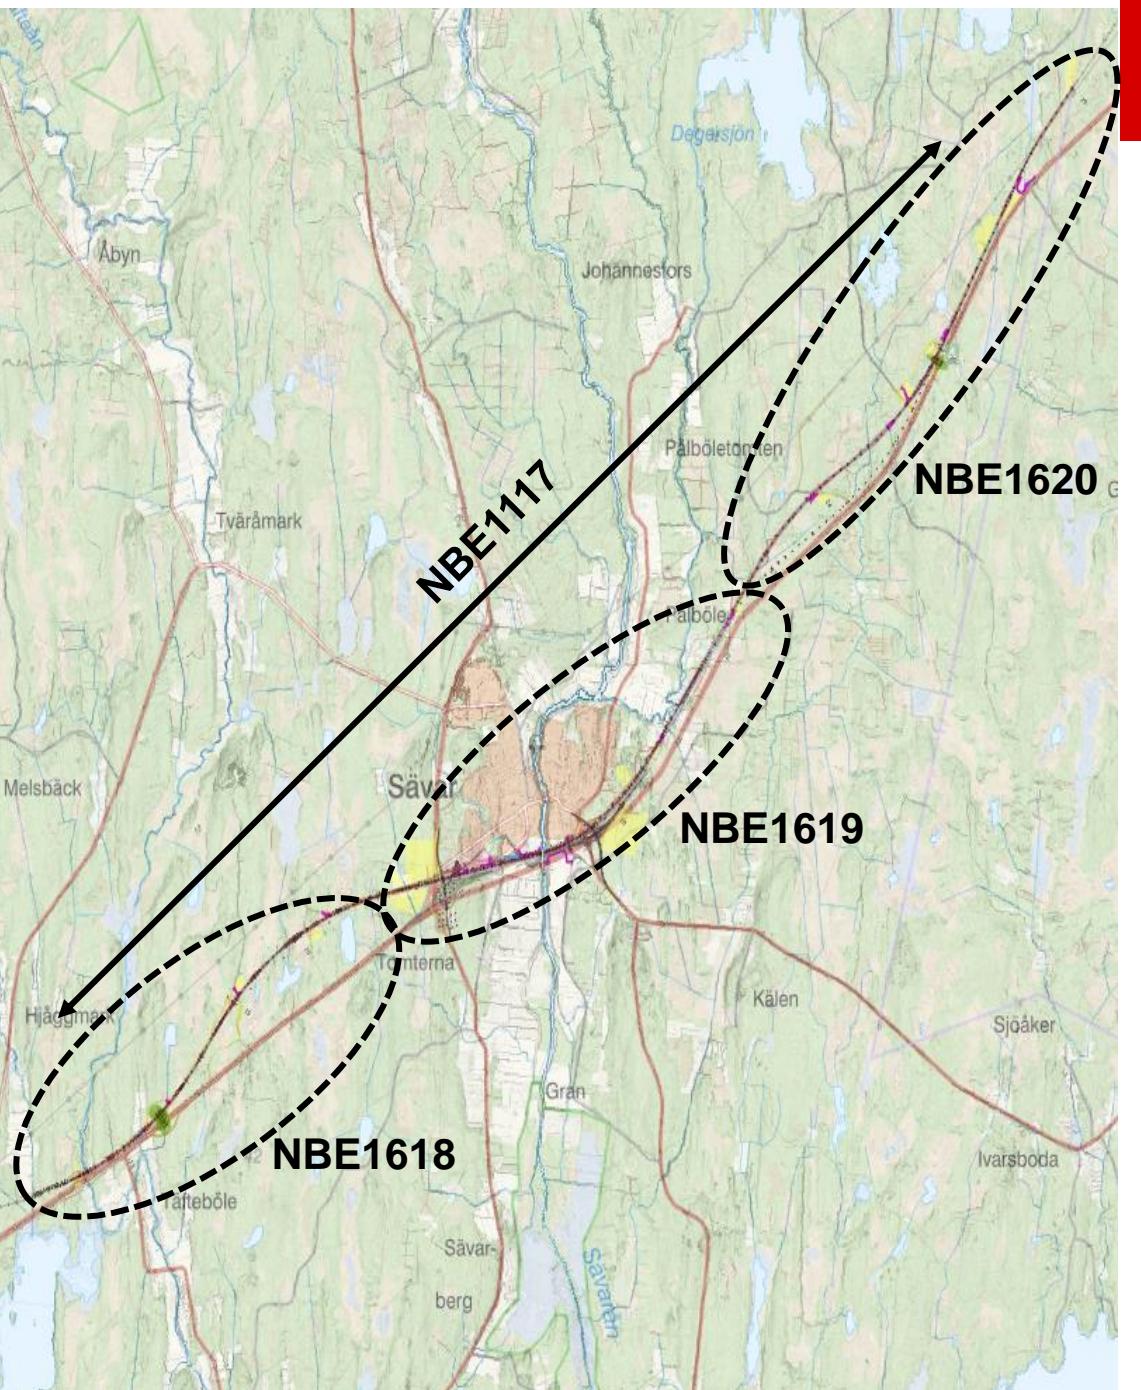

Dåva (Umeå) - Skellefteå

- Earthworks 2024-2028
- Railway infrastructure start 2027
- Still a high degree of uncertainties about the timeplan due to the appeal of our railway plans for Dåva–Skellefteå
 - The current times are based on access to the territory from 2024
