

Continued early dialogues for TSE101 Crosslink Södertörn

The Swedish Transport Administration has decided to continue the individual dialogues regarding procurement of TSE101, the Vårby bridges and the Duvberget interchange. We want to continue the dialogue with the market in order to design the procurement documents in the best way.

In November and December, we invite contractors to individual dialogue meetings regarding the procurement of TSE101. The meetings will primarily be held at our office in Stockholm, Solna Strandväg 98. If any contractor is unable to participate at our office, digital meetings will be offered. The meetings are estimated to take about 1,5 hours.

The dialogues are not part of future procurements and participation does not affect the opportunities to submit tenders in future procurements.

The results of the dialogues will be published in anonymised form on the program's website in good time before the invitation to tender, currently estimated at May 2024.

Agenda for dialogue
